

— A STAGE MANAGEMENT GROUP SERVICE —

STOP BUILDING *spreadsheets.* START BUILDING *shows.*

Paper and pencil had a good run. Your script does the paperwork now.

PARCEVAL™ is an educator-managed system that turns licensed script PDFs into structured, professional production materials in minutes.

THE CLERICAL BURDEN

40+ hours, *before* rehearsal begins.

Traditional pre-production means manual script parsing and tedious clerical data entry before the first rehearsal ever begins. For an educator juggling classes, grading, and budgets, that's a week of valuable time lost.

FOR SALE: TIME

We market the one thing you *need more of.*

Every hour spent manually building production spreadsheets by hand is an hour stripped away from blocking, running technical rehearsals, mentoring your students, or simply going home.

HOW IT WORKS

Your script is the *single source of truth.*

PARCEVAL ingests your licensed script PDF and automatically routes crucial production data directly into organized environments. Your student stage manager walks into rehearsal on Day 1 fully supported by a rock-solid foundation.

1

Upload Script

Submit your licensed script file securely to the platform.

2

PARCEVAL™ Reads

Extracts complete production data directly from the script.

3

Organized Sheets

Instant, comprehensive materials sorted neatly by department.

4

Day 1 Ready

Your stage manager steps into the room with a professional spine.

PARCEVAL™ is a powerful starting point.

Use the sheets as-is, or integrate them into the systems you already trust.

ENGINEERED FOR EDUCATORS

ENGINEERED FOR *excellence.* BUILT FOR *privacy.*

Professional Logic. Total Control. Zero Friction.

ENGINEERED SECURITY

The *Data Sequester.*

Security isn't a digital patch; it's baked directly into our DNA. PARCEVAL™ operates on a strict data-sequester architecture to clear administrative hurdles instantly:

- ◆ **Registration & Payments:** Secured on [stagemanagement.ai](#).
- ◆ **Script Analysis & Engines:** Isolated on [parceval.ai](#).

Nothing is installed on your school's IT network. Student access is granted only through role-assigned emails. PARCEVAL™ isn't built (yet) to handle cast lists or rehearsal schedules, so it never asks for student data in the first place.

TOTAL CONTROL & VALIDATION

The *Revelation Principle.*

You decide which sheets your students see, and when they see them. Students get only what they need, exactly when they need it. You only have to be ready for the next reveal, not all on Day 1. PARCEVAL™ guides you through every sheet, so you can guide your students — step by step, together.

COMPREHENSIVE PRODUCTION SPINE

- ✓ **SM Checklist**
Teacher-editable to assign student work
- ✓ **Questions & Issues Logs**
Surfaces script gotchas and cross-department issues early
- ✓ **Show Flow & Character/Scene Breakdown**
Big-picture overview of every production need
- ✓ **Preliminary Prop & Costume Lists**
- ✓ **Prop & Costume Plots**
- ✓ **Light & Follow Spot Cue Lists**
- ✓ **Sound & Body Mic Cue Lists**

More sheets added as we grow.

VISUAL PROOF OF THE AUTOMATION

Eliminating stacks of manual layout grids and replacing them with clean, structured digital pipelines.
